THE USE OF EXPLOSION ENERGY TO INCREASE THE EFFICIENCY OF THE CHAMBER DEVELOPMENT SYSTEM

IVANOV IGOR VLADIMIROVICH¹
SIDOROV OLEG VALERIANOVICH²

¹Ural state mining University

²JSC "Yuzhuralzoloto Group of Companies"

Abstract. The article contains the idea of using the energy of an explosive charge explosion to increase the efficiency of using a chamber development system with a bookmark of the developed space.

Keywords: chamber mining system, explosion energy, loosening coefficient, compensation, ore breaking in a clamped environment.

Article submission guidelines

Materials must be submitted to the organizing committee in the form of an article saved as a Microsoft Word – compatible file. The text should be formatted for Times New Roman font, with the title of the article printed in semi-bold, capital, 12 font size; the authors' names printed in capital, 11 font size; the name of the organization, abstract, and keywords printed in 11 font size; the text of the article printed in 12 font size with the interval of 1, right and left margins of 25 mm, top and bottom margins of 25 mm).

The list of references is required to be made in accordance with national standard (GOST) in 11 font size.

Conference Registration Form

1. Full name _____

2. Organization _____

3. Position _____

4. Academic rank, degree _____

5. Mailing address _____

6. Phone, fax number _____

7. E-mail address _____

8. Presentation title _____

Form of participation (with or without conference attendance) _____

Every field is required to be filled in.

Signature _____

Date _____ 2024.

Conference Venue

The second educational building of the Ural State Mining University, 9 Universitetskiy Lane, Yekaterinburg. 2235

Conference Organizing Committee

Chairman:

Valiev N. G. – Head of Mining Department of the Ural State Mining University, Doctor of Engineering Sciences, Professor

Chairman of the Program Committee:

Yakovlev V. L. – Corresponding Member of the Russian Academy of Sciences, Adviser of the Russian Academy of Sciences, Doctor of Technical Sciences, Professor, Chief Researcher of the IGD of the Ural Branch of the Russian Academy of Sciences.

Cochairmen:

Sokolov I. V. – Director of the Mining Institute of the Ural Department of the Russian Academy of Sciences, Doctor of Engineering Sciences.

Lel Yu. I. – Head of Opencast Mining Department, Ural State Mining University, Doctor of Engineering Sciences, Professor.

Propp V. D.– Deputy Head of Mining Department of the Ural State Mining University, Candidate of Engineering Sciences, Associate Professor.

Volkov M. N. –Head of the Mine Construction Department of the Ural State University, Candidate of Engineering Sciences, Dean of the Faculty of Mining and Technology.

Organizing Committee:

Dyomin V. F. –Professor of the Department “Mining of mineral deposits” of Karaganda State Technical University (the Republic of Kazakhstan), Doctor of Engineering Sciences, Professor;

Zavornitsyn V. V. - Head of the Department of

Development and Implementation of Investment Projects of Mining Enterprises of JSC "UMMC".

Nabiullin F. M.– Director General of LLC «Beryozovskiy Rudnik (Mine)».

Zheenaliev M. S. - Director General of LLC «Kurandy Development» (Kyrgyz Republic).

Kootenev A. A. – General Director of PEGMATIT LLC, Candidate of Technical Sciences.

Salakhiev R. G. – Chief engineer of JSC «Uralasbest».

Zdorovets I. L. – Chief engineer of the prospectors’ cooperative association “Neiva”.

Arefev S. A. – Associate Professor of Mining Department, Candidate of Engineering Sciences, Associate Professor.

Dear colleagues,

We are pleased to invite you to attend **XIII International scientific and technical conference “Innovative geotechnologies in the development of metallic and non-metallic deposits”** which is to be held within the framework of XXII URAL MINING DECADE on April 4-5, 2024.

The conference is devoted to the results of the fundamental and applied researches on the problems of the earth sciences; the issues related to the use of computer technologies in mining, the modeling of mining and geological conditions, the implementation of new methods of geometrization and prediction of the state of the geological environment; the problems with robotization and automation of production processes at mining enterprises, the increase in the level of training of mining engineers.

Conference topics

1. Improvement in the underground mining technology;
2. Improvement in the opencast mining technology;

3. Geomechanical support of mining;
4. Integration in the use of natural deposits in the course of mining;
5. Sustainable land management;
6. Modeling and calculations of the complex technological systems in the course mining
7. Use of remote and automated technologies in mining of useful minerals;
8. Geometrical and graphic modeling in engineering education;
9. Actualization of the regulatory framework of mining design projects and operations.

Conference participation requirements

The conference is aimed for industrial workers, scientists, teachers, and post-graduate students.

To participate in the conference it is necessary to submit

- conference registration form
- text of the article formatted in accordance with the article submission guidelines
- act of expert examination for the open publication (scanned copy)

The conference materials will be published in the collection of scientific papers. **The conference collection of scientific papers is indexed in the database of the Russian Science Citation Index (RSCI)**

Publication is free of charge

Conference Deadlines

Submit your conference registration forms **by February 18, 2024.**

Submit your presentations and articles **by February 18, 2024.**
